

Gogo Biz[®]

In-flight Internet and voice.
In a class by itself.

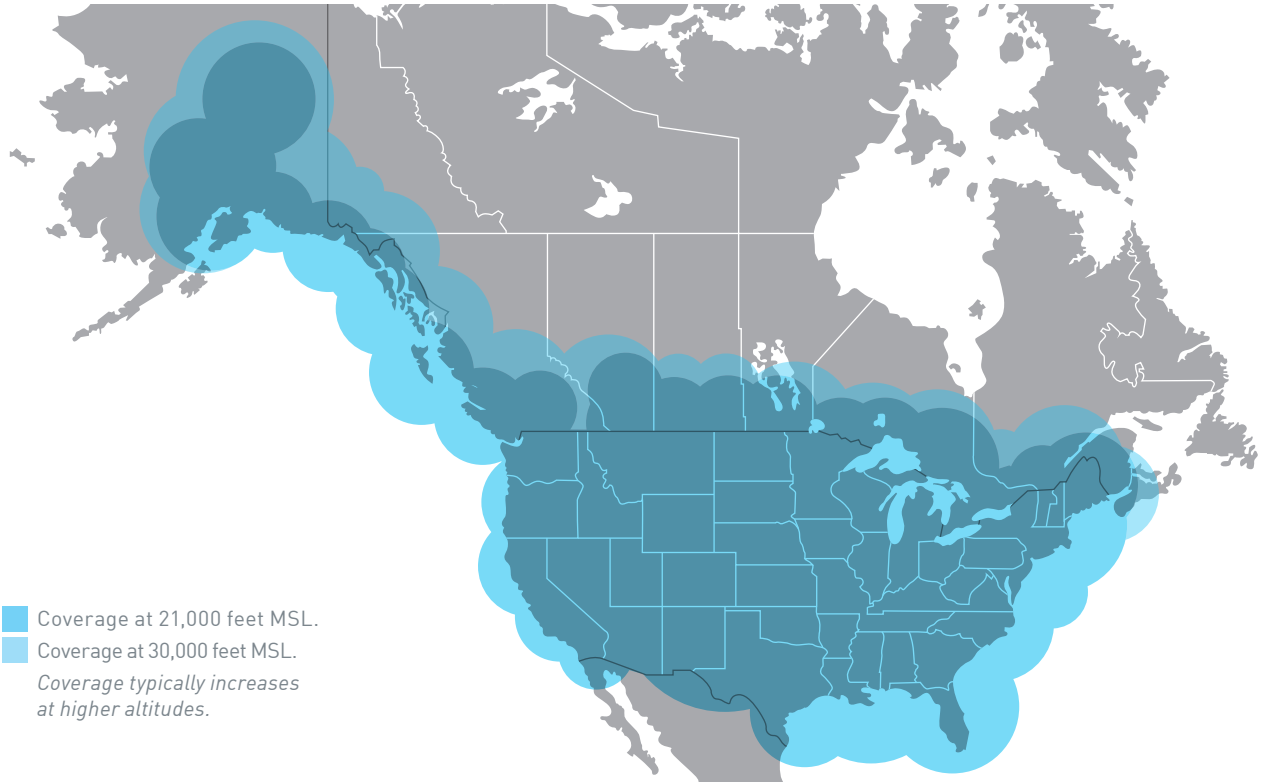

Gogo Biz®
U.S. and Canada broadband Internet and voice network

Internet at the speed you need. And clear voice calling. This is high performance.

A major advance in broadband technology, Gogo Biz is the only system in aviation providing Internet and voice with equipment small and light enough for virtually any aircraft.

Surf the Internet, send and receive email with attachments, and log into your corporate VPN using your own personal laptop, smartphones and tablets. Performing at the fastest, most affordable airborne data speeds, Gogo Biz truly allows you to use your wireless devices to do in the air virtually everything you do on the ground. So you stay every bit as connected and productive.

APPLICATIONS

- Mobile broadband Internet
- Corporate VPN Access
- Email
- Voice

COVERAGE AREA

Continental U.S. and portions of Alaska and Canada, starting at 10,000 ft. above ground level (or higher)

SUPPORTED DEVICES

- Laptops, notebooks, tablets, and smartphones can be used for data usage. (With a Wi-Fi connection installed, Wi-Fi enabled devices will work.)
- Personal smartphones can be used for voice calls and text messaging, with Gogo Text & Talk service

EXPERIENCE

- Full mobile broadband – like a hotel or coffee shop
- Voice – similar to a mobile phone call on the ground (Use the Gogo® OnePhone, or your own smartphone with Gogo Text & Talk).
